WELCOME

Your Digital Marketing Journey Begins Here

CBM Academy is designed for learners who want practical digital marketing skills they can use in real work environments. The programme brings together marketing foundations, performance channels, analytics and modern AI workflows.

The learning approach is built around doing—not just watching. Learners work through guided exercises, campaign-style tasks and practical workflows while building confidence across the digital marketing stack.

Our goal is simple: help learners become more job-ready, more capable and more confident in digital marketing.

Programme at a Glance

- Structured learning with practical application
- Focus on current digital marketing workflows
- Designed for students, graduates, professionals and career switchers
- Supportive learning environment with trainer guidance

Who Is This Programme For?

Students & Graduates — Build a practical foundation and understand the skills employers look for.

Working Professionals — Add digital marketing capabilities or move toward a new role.

Career Switchers — Create a structured path into a digital function.

Freelancers — Strengthen your service offering with modern marketing workflows.

Entrepreneurs — Understand channels and metrics that support business growth.

Marketing Teams — Develop capability across performance, analytics and AI.
